

# Exercise - Create a pipeline

20 minutes

Now it's your chance to create and run an Azure Machine Learning pipeline.

In this exercise, you will:

- Create an Azure Machine Learning pipeline.
- Publish a pipeline as a REST service.
- Schedule a pipeline.

## Instructions

Follow these instructions to complete the exercise.

1. If you do not already have an Azure subscription, sign up for a free trial at <https://azure.microsoft.com> .
2. View the exercise repo at <https://aka.ms/mslearn-dp100> .
3. If you have not already done so, complete the **Create an Azure Machine Learning workspace** exercise to provision an Azure Machine Learning workspace, create a compute instance, and clone the required files.
4. Complete the **Create a pipeline** exercise.

## Next unit: Knowledge check
