Exercise - Work with data

20 minutes

Now it's your chance to work with data in Azure Machine Learning.

In this exercise, you will:

- Upload data to a datastore
- Create datasets
- Use datasets to train a model

Instructions

Follow these instructions to complete the exercise.

1. If you do not already have an Azure subscription, sign up for a free trial at <https://azure.microsoft.com> .
2. View the exercise repo at <https://aka.ms/mslearn-dp100> .
3. If you have not already done so, complete the **Create an Azure Machine Learning workspace** exercise to provision an Azure Machine Learning workspace, create a compute instance, and clone the required files.
4. Complete the **Work with data** exercise.

Next unit: Knowledge check
