

Exercise - Run experiments

20 minutes

Now it's your chance to try out Azure Machine Learning for yourself.

In this exercise, you will:

- Run an Azure Machine Learning experiment.
- Run a script as an experiment.
- Use MLflow to track experiment metrics.

Instructions

Follow these instructions to complete the exercise.

1. If you do not already have an Azure subscription, sign up for a free trial at <https://azure.microsoft.com> .
2. View the exercise repo at <https://aka.ms/mslearn-dp100> .
3. If you have not already done so, complete the **Create an Azure Machine Learning workspace** exercise to provision an Azure Machine Learning workspace, create a compute instance, and clone the required files.
4. Complete the **Run experiments** exercise.
