Exercise - Create a batch inference pipeline

30 minutes

Now it's your chance to create and run a batch inferencing pipeline.

In this exercise, you will:

- Create a batch inferencing pipeline.
- Publish the pipeline as a REST service.
- Run the pipeline through its REST endpoint.

Instructions

Follow these instructions to complete the exercise.

1. If you do not already have an Azure subscription, sign up for a free trial at
   https://azure.microsoft.com .
2. View the exercise repo at https://aka.ms/mslearn-dp100 .
3. If you have not already done so, complete the **Create an Azure Machine Learning workspace** exercise to provision an Azure Machine Learning workspace, create a compute instance, and clone the required files.
4. Complete the **Create a batch inference service** exercise.
